ABOUT US

In HiddenData we believe, that only complex projects can lead us to work with best people and in most effective environment. Our goal is to overcome challenges and be proud of success.

That is why we cooperate with customers, who have complex projects and demand highest quality. Internally we recruit real stars and create the most effective work environment.

We created two products:

Spirit – an engine which excels in building customized eLearning software, online creators, architectural and artistic designers, tools for recruitment, presentation and sales.

VideoID – the best product, to build complex portals and video platforms. It is focused on video management and distribution.
